LaVonna Roth

Speaker, author, founder of Ignite Your S.H.I.N.E. Framework

Mindsets Become Beliefs—Is Yours Trash or Treasure?

Mindsets are meaningless, right? Wrong. Mindsets can make or break us by giving us the words we choose, the perspectives we take, and the attitudes we hold about ourselves and others. It's time to take back control. Get ready to discover, through interaction and exploration, how to help your students (and maybe yourself!) turn trash (negative thoughts) into treasure (positive beliefs). Participants will dig into brain research to learn how to shift tough moments into sources of strength. We got this!

Wednesday, June 26
12:15–1:45 p.m.

Dominique Smith

Author, director of student services at Health Sciences High & Middle College, culture builder, student advocate

Building Relationships with the Power of Restorative Practices

Discover how to build, repair, and maintain relationships through the social science of restorative practices. In the school setting, restorative practices help students and adults recognize and own their actions that cause harm to others, while teaching them the skills to repair that harm. We can use restorative practices not only to change classroom management and environment, but also to support equity within schools.
